

SURYAKIRAN U

Full Stack Developer | Frontend Developer

[+91 9946385646](tel:+919946385646) ◇ devpytech@gmail.com ◇ [LinkedIn](#) ◇ [Portfolio](#)

PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building scalable web applications using React, Angular, Django REST Framework, and PostgreSQL. Skilled in JWT authentication, RBAC, REST API integration, and responsive UI design with Tailwind CSS. Delivered production-grade billing and management systems reducing manual processing by ~40%.

TECHNICAL SKILLS

Frontend:	ReactJS, Angular, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS
Backend:	Python, Django, Django REST Framework, NestJS
Database:	PostgreSQL, SQLite
Tools:	Git, Firebase, Axios, html2pdf.js, REST APIs
Concepts:	JWT Authentication, RBAC, Responsive Design, API Integration, Error Handling
Languages:	English, Malayalam, Tamil, Hindi

EXPERIENCE

Full Stack Developer Intern — Techfivo Innovations LLP

January 2026 – April 2026

Palakkad, India

- Engineered **3+ full-stack modules** using React, Django REST Framework, and PostgreSQL, cutting manual billing work by ~40%.
- Spearheaded a pixel-perfect A4 invoice system (Tax & Proforma) with PDF export via html2pdf.js, reducing invoice generation time by ~30%.
- Deployed JWT authentication and RBAC across **5+ role-scoped access levels**, securing multi-user workflows.
- Established a modular Axios API layer with auto token refresh, handling **10+ API endpoints** with centralized error control.
- Integrated Firebase FCM push notifications and built **4+ responsive UI components** with robust validation logic.

Junior Web Developer Intern —Telecomatics Technologies Pvt. Ltd.

July 2025 – August 2025

Coimbatore, India

- Developed a Student Record Manager using Angular and NestJS with full CRUD across **500+ records**, backed by PostgreSQL.
- Crafted **6+ RESTful API endpoints** with PostgreSQL integration for scalable and efficient data management.
- Applied secure authentication (login, registration, backend validation) using TypeScript end-to-end.
- Accelerated UI rendering speed by refactoring components, improving responsiveness across **3+ key views**.

PROJECTS

Palakkad Tourism Trip Planner

React, Django, PostgreSQL, Firebase

- Architected a full-stack itinerary planner enabling personalized trip generation across **20+ destinations** based on interests and duration.
- Executed **8+ REST API endpoints** via Django REST Framework for destinations, media galleries, and trip data.
- Configured an admin panel with full CRUD for **3 content types** — destinations, gallery media, and user-generated trips.

Gym Management System

React + Vite, Tailwind CSS, Django REST Framework, Firebase

- Built a dual-panel system (Maintainer + Superadmin) managing **members, renewals, and transactions** across 2 role scopes.
- Wired Firebase FCM with backend token sync, delivering real-time push notifications to **all active sessions**.
- Centralized Axios API handling with auto token refresh, covering **10+ endpoints** with full error management.

TechFivo Billing System

React + Vite, Django REST Framework, html2pdf.js

- Delivered a Billing Platform supporting Tax Invoices, Proforma, GST calculation, and **multi-client management**.
- Streamlined A4 invoice rendering with multi-page support and print-safe PDF export using html2pdf.js.
- Secured routing with JWT authentication and role-based navigation across **3+ user roles**.

EDUCATION

B.E. Computer Science & Engineering — EASA College of Engineering and Technology

November 2022 – April 2026

Coimbatore, India | CGPA: 8.0

- Gained strong foundations in Data Structures, Algorithms, DBMS, and Operating Systems.
- Completed **4+ full-stack projects** using React, Angular, Django, and NestJS across academic and personal work.

Higher Secondary in Computer Science — VMHS School

2020 – 2022

Vadavannur, Palakkad, India
